YEAR
WARRANTY

This 1986 brochure cover inspired our 2015 literature.

BUILT TO BE AMERICA'S **family** FAVORITE

JAY FLIGHT TRAVEL TRAILERS

For 45 years, Jayco has helped create generations of family fun, and over the course of that time, fun still looks remarkably the same. From campfires to fishing, from relaxing to eating, fun has the same feel generations later—and all with a Jayco RV nearby. Today, we're the largest family-owned RV manufacturer in the world, and our promise is to continually strive to build family-friendly products that will outlast just about everything but your memories. Join us in our generations of family fun.

On the cover: The 1986 brochure artwork, illustrated by Tim MacDonald, was part of a successful ad campaign. These illustrations inspired the 2015 Jayco brochure covers, which are live re-creations of Tim's artwork.

* The weights of certain options and/or option packages are not included in the UWW listed in the specification charts.

Unloaded Vehicle Weight (UWW): Sometimes referred to as "Dry Weight," UWW means the typical weight of this trailer as built at the factory. The UWW, as used in product literature and other promotional materials, does not include cargo, fresh water, propane, options or dealer-installed accessories.

Gross Vehicle Weight Rating (GVWR): GVWR means the maximum permissible weight of the trailer, including the UWW plus passengers, personal items, all cargo, fluids, options, and dealer-installed accessories. The GVWR is equal to or greater than the sum of the UWW and the CCC.

Cargo Carrying Capacity (CCC): CCC means the maximum weight of all passengers, personal items, food, fresh water, propane, tools, other cargo and dealer-installed accessories that can be carried by the trailer. CCC is equal to or less than GVWR minus UWW. The addition of options will decrease the CCC.

Hitch Weight (HW): The hitch weight, as used in product literature and other promotional materials, does not include cargo, fresh water, propane gas, options or dealer-installed accessories. The addition of these types of items will either add to or subtract from the stated hitch weight.

It is important for your safety and enjoyment that your tow vehicle be adequately sized and equipped to tow and handle the GVWR of the RV you select. Review weights and rating of your tow vehicle and consult a competent advisor for questions or advice. Whether you are new to RVing or a veteran, get a feel for the performance of your tow vehicle before heading out on the roadways. When you tow an RV, you must drive differently than when you drive a single vehicle. Practice hooking up, driving, backing up and braking in a safe environment or seek out professional instruction. Jayco affixes a weight label to each RV which lists weight information for that vehicle. See specifications chart above.

JAY FLIGHT SLX STANDARDS AND OPTIONS

* The weights of certain options and/or option packages are not included in the UUV listed in the specification charts.

Unloaded Vehicle Weight (UUV): Sometimes referred to as "Dry Weight," UUV means the typical weight of this trailer as built at the factory. The UUV, as used in product literature and other promotional materials, does not include cargo, fresh water, propane, options or dealer-installed accessories.

Gross Vehicle Weight Rating (GVWR): GVWR means the maximum permissible weight of the trailer, including the UUV plus passengers, personal items, all cargo, fluids, options, and dealer-installed accessories. The GVWR is equal to or greater than the sum of the UUV and the CCC.

Cargo Carrying Capacity (CCC): CCC means the maximum weight of all passengers, personal items, food, fresh water, propane, tools, other cargo and dealer-installed accessories that can be carried by the trailer. CCC is equal to or less than GVWR minus UUV. The addition of options will decrease the CCC.

Hitch Weight (HW): The hitch weight, as used in product literature and other promotional materials, does not include cargo, fresh water, propane gas, options or dealer-installed accessories. The addition of these types of items will either add to or subtract from the stated hitch weight.

It is important for your safety and enjoyment that your tow vehicle be adequately sized and equipped to tow and handle the GVWR of the RV you select. Review weights and rating of your tow vehicle and consult a competent advisor for questions or advice. Whether you are new to RVing or a veteran, get a feel for the performance of your tow vehicle before heading out on the roadways. When you tow an RV, you must drive differently than when you drive a single vehicle. Practice hooking up, driving, backing up and braking in a safe environment or seek out professional instruction. Jayco affixes a weight label to each RV which lists weight information for that vehicle. See specifications chart above.

JAY FLIGHT STANDARDS AND OPTIONS

STANDARD EXTERIOR EQUIPMENT

I-Class cambered structural-steel I-beams with fully integrated A-frame
 Magnum Truss Roof System with one-piece, seamless DiFlex II material

CASHEW

WE START WITH ONE OF THE INDUSTRY'S

Jayco builds on custom-sized frames, designed specifically for each floorplan. Other manufacturers use stock frames, stretching and welding the frame to fit.

Full-width outriggers: We build on full-width outriggers that are spaced 4-6 feet apart (vs. 8 ft.) to better support the weight of the wall.

WALL CONSTRUCTION

hand-tucked insulation

- ① Jayco hand tucks and glues its fiberglass insulation to increase the insulation value near the 2" x 2" wooden studs. Competitors use a blanket-insulation technique.
- ② An optional fiberglass package combines smooth fiberglass with Jay Flight's 2" x 2" wooden studs, lauan and fiberglass insulation. The front and rear walls are vacuum bonded for added durability, while the sidewalls are pinch rolled, creating an affordable package.

strongest foundations

4-6 ft.

Integrated A-frame: The A-frame runs through the main frame, preventing the hitch from buckling like competing tack-welded frames.

I-Class cambered structural-steel I-beams: Jayco uses a unique molded, one-piece design to prevent the unit from twisting; competing three-piece I-beams can warp over time at the welded seams.

– so that we can build the industry's most reliable RV

JAYCO'S ROOF **vs** OTHER ROOFS

4,500 LBS. ON A JAYCO ROOF VS. OTHER ROOFS

THE MAGNUM TRUSS ROOF SYSTEM **50 percent stronger**

In a side-by-side comparison test, Jayco's exclusive Magnum Truss Roof System withstood 4,500 lbs. — 50 percent more than other roofs. The difference?

- 5 Jayco uses 4 1/2" crowned wood trusses, solid-wood studs and oversized nail plates to maximize the roof's load capacity.
- 6 Then, we screw down 3/8" plywood decking at every seam, a process that is more durable than stapled construction.
- 7 Finally, our one-piece, sidewall-wrapped DiFlex II material provides the ultimate in leak protection.

FLOOR CONSTRUCTION **holds up to the elements**

- 3 Constructed on 5/8" tongue-and-groove plywood on 2" x 3" wooden floor joists and wrapped with a protective moisture barrier, Jay Flight is built to keep the elements out.
- 4 Galvanized-steel wheel wells, not found on competing models, reduce heat loss and prevent damage in case of a blown tire.

2
YEAR
WARRANTY

Bumper-to-hitch limited warranty*

Jayco[®]

Generations of family fun.

FAMILY fun
starts with peace of mind

At Jayco, we build our RVs to handle every adventure, then we back our products with an industry-leading 2-year limited warranty. You won't find a better warranty in the business because the only strings we attach are those that deliver the ultimate in reliability. That's the Jayco difference. So go explore. We have the warranty that will follow you anywhere.

*For a copy of our 2-year limited warranty with full terms and conditions, please contact your local Jayco dealer.

FREE Roadside Assistance

Travel worry-free with Jayco's Customer First Roadside Assistance program, yours at no cost during the first year of ownership. This program is offered through Coach-Net, the country's largest RV emergency road service, and gives you immediate access to assistance.

The fun starts with your local Jayco dealer

Your local dealer

From giving advice to selling and servicing products, we consider our loyal dealers the glue in our family bond. Establishing a solid relationship with your local Jayco dealer is a key component in the enjoyment of your new Jayco. By purchasing from a local dealer, you will have a convenient location for sales, parts and service support. We hope you consider them a part of your camping family.
